

Absolute Manufacturing

"Quality Precision Parts & Components – Delivered On Time"

AS9100 Rev C / ISO9001:2008, ITAR, Made in the USA

Contract Manufacturer of High Tolerance CNC Precision Parts and Subassemblies.

Division of:

Roanwell
CORPORATION

ABSOLUTE MANUFACTURING

Absolute Manufacturing specializes in precision machining and assembly of close tolerance challenging materials such as stainless steel, aluminum, nickel alloys, titanium and other engineered materials. The company provides CNC machining, assembly, and program management for the medical and industrial markets.

The company's capabilities include CNC milling, turning, surface grinding, honing, and assembly and kitting. Absolute Manufacturing specializes in complex machined components made from challenging materials from prototype volumes to over 10,000 piece lots.

The company utilizes top of the line equipment, which includes Matsuura, Fanuc Robodrill, and Mori Seiki machining centers, Sweko vibratory finishers, and numerous other CNC Machines.

Absolute Manufacturing operates from 6,300 square feet of light industrial space located in Pepperell, Massachusetts. Absolute Manufacturing was founded in 1986 by David Gosselin and was acquired by Roanwell Corporation in May 2012.

PART PORTFOLIO

PRECISION TURNING:

- Keyed and Threaded Shafts
- Contoured Disks and Covers
- Concentric Bored and Broached Hubs
- Standard and Specialized Threaded Caps

HIGH PERFORMANCE AND SPEED MILLING:

- Microwave Amplifiers
- Multi-dimensional Housings
- Thread Milled Adapters
- Profiled Rotors and Impellers
- High Tolerance Aerospace Sub-assemblies
- Medical Devices and Components

Milling

CNC multi-axis mills can create any part to your designs

Turning

CNC lathes can turn any part to the desired shape

Boring

Boring facilities add extra precision to machined holes

Testing Facilities

Absolute Manufacturing, in conjunction with their parent company Roanwell Corporation, have state of the art testing facilities to ensure compliance to military or commercial requirements

Polishing & Metal Finishing

Polishing & metal finishing facilities to create the desired finish to your part

CAD Design

Absolute Manufacturing, in conjunction with their parent company Roanwell Corporation, have engineers that can assist you in completing your three dimensional solid designs

CNC Programming Machining

Our talented staff can program our CNC Machines to produce even the most complex parts

ROANWELL COMPLETES ACQUISITION OF ABSOLUTE MANUFACTURING

BRONX, NEW YORK – May 9, 2012 – Roanwell Corporation ("Roanwell"), est. 1948, a leading designer and manufacturer of rugged communications equipment, today announced the purchase of Absolute Manufacturing, Inc.'s business assets and operations.

Located in Pepperell, Massachusetts, Absolute Manufacturing specializes in close tolerance machined parts through the use of their multi-axis CNC milling and turning machines. Other capabilities that Absolute Manufacturing offers include: surface grinding, boring and honing as well as value added services such as assembly and kitting.

Absolute Manufacturing presently offers more than 1,000 products for integration into a variety of medical devices that are manufactured by leading original equipment manufacturers and Tier 1 medical device suppliers.

Roanwell Corporation will continue doing business under the Absolute Manufacturing name, retain all employees of the former entity and has leased the existing facility. Roanwell plans to make additional investments in equipment and personnel to further enhance the capabilities of the company to pursue increasingly more complex projects and provide additional value-added services for its customers.

"The acquisition of Absolute Manufacturing, Inc. is a key platform for Roanwell to execute its strategy of expanding into engineered close tolerance precision part manufacturing, allowing for growth in our already established aerospace and military markets, as well as expanding into the medical and power industries" said Jonathan LaBarre, President of Roanwell Corporation.

David Gosselin, Absolute Manufacturing, Inc.'s founder and president, agrees that Roanwell's resources and significant presence in the military and aerospace markets will give both companies the opportunity for faster growth.

"Our capabilities complement each other," he added. "Together, we are confident we can become a major force in the rapidly expanding global market for high precision parts."

Roanwell is dedicated to providing the highest level of performance through quality design, manufacturing and world-class service and support. Roanwell is committed to delivering Absolute Manufacturing's customers the same excellent service. "Our goal is to make the integration of the product lines to Roanwell ownership a positive transition for all customers," LaBarre said.

About Roanwell Corporation

Founded in 1948, Roanwell Corporation specializes in manufacturing headsets, handsets, microphones, earphones, cords, harnesses, and accessories for military and commercial communications markets.

The acquisition of Absolute Manufacturing continues Roanwell Corporation's continual growth and expansion program. Other recent growth includes the January 2012, long term sales and marketing agreement with DGM4Parts, www.dgm4parts.com, a New Jersey-based contract manufacturer of wire harnesses, electro-mechanical box building, sign engraving and painting. In addition, DGM4Parts holds over twenty franchised distributor lines offering integrated electronic components and connectors. DGM4Parts has served the military electronics, semiconductor, medical instrumentation, and elevator markets for more than thirty-two years.

With their recent acquisitions, management is now focused on growing its diversified manufacturing group via operating initiatives that are expected to complement and diversify existing business lines.
